9. **Director Updates**

Vigneswaramoorthy, Don and Gupta had no updates.

Sithamparanathan met with Arayata to discuss having access to the library 24/7 during midterms. Since Arayata sits on a Library Council, she will bring up this topic during the next Library Council Meeting.

Stojanovski stated that quite a few ACM students found that their lectures, which are traditionally 3 hours long, are now 2 hours long; now ACM students have more work to do in between classes as opposed to time spent in-class. Stojanovski noted that this is happening across the board for ACM students but they do not know why.

Arayata suggested contacting ARTSA to see if ARTSA sits on a curriculum committee. Arayata recommended Stojanovski to ask ARTSA whether they have information on past curriculums and ask whether this issue was discussed in a previous meeting.

Ali had 2 updates. Ali stated that the Philosophy department would hold its Annual Meet & Greet on Tuesday September 26th from 4pm-6pm. Ali stated that this event would be produced by UTSC philosophy students. Ali explained that Philosophy professors and students would have lunch together while they discuss various topics and issues.
Meeting Minutes of Board of Directors Meeting #5 of the Scarborough Campus Students’ Union
Friday September 22nd, 2017 | 6:13 PM | SL-232, UTSC Student Centre

Ali was invited to an international peace festival in South Korea as a representative of Toronto and UTSC. Ali noted that he was the only Canadian present at the conference. Ali stated the purpose of the conference was to promote peace and unity globally and to have mutual understanding for all cultures and religions of different nations.

Jahangir stated that she attended the HCSSA General Meeting on September 14th, and 4 major points were discussed during this meeting. The first initiative of the HCCSA was to initiate study groups for first and second years because tutorial funding was cut in multiple departments. This project is in the works but they hope to have it up and running soon.

Another initiative mentioned was the creation of a multi-disciplinary undergraduate journal for students by students. Jahangir stated that HCSSA wants to collaborate with different departments, and mentioned that synthesis was a potential theme for the journal.

Jahangir stated that it is difficult to get jobs after school or jobs tailored to students in History and Women's Studies, and African Studies. Jahangir mentioned the idea of creating volunteer internships where students can work with professors, and these could lead to future employment opportunities. Jahangir stated that this idea is still new and she is working it. Jahangir mentioned that there are a lot of events that are still in the works.

Touman did not have updates about the Psychology department. Touman mentioned that a Muslim student, who also identifies as a LGBTQ person, went to SC: OUT and they felt very unsafe in that space although it claims to be a safe space. Touman asked if anything could be done with SC: OUT to make this space more inclusive to Muslim people.

The Chair suggested to discuss this issue more in depth offline.

Srithas mentioned the possibility of including speakers during the Board of Directors meetings to facilitate discussion.

5. Transit Updates

   Zakir presented interest in having a working team for Transit. The 198 was an area where there was a victory with increased service. There were meetings with YRT and contributions were made to their upcoming plans. There is a new survey that has been put out in collaboration with the University. The SCSU have met with several councilors to discuss the future of Transit and would like other students to get involved with these opportunities.
Sahayian there was an email of the survey sent out and appreciates that there is movement to get information out there.

Abdillahi speaks about the UPASS and whether this is an initiative that is going to be implemented.

Srithas responds that there is a question about what the UPASS would look like on the survey.

Sahayian is this the same UPASS that would be related to other universities that are downtown?

Srithas responds that this will be part of the discussion, but this survey is very much related to Scarborough experiences.

Atwal discussed a petition to have a shuttle bus to go downtown.

Srithas responds with the issues for TTC and charging for transportation.

Konstantopoulos would like if the 198 ran until midnight because it is very difficult to get around at night. Generally the buses are infrequent.

Estaris lives in a region that uses the DRT. The DRT is very infrequent. There should be more advocacy to have them come at the time that is listed on the website. There used to be 2 buses that would come but this has stopped. There are several people who use this bus, not only students so there is definitely a need.

Sahayian talks about the 198. There are many people using the 198 when they could have been using several of the other buses. They should have some sort of pass to have it so that it is only for students.

Joachimpillai lives near one of the 198 stops and believes there could be benefits if there were more people. There were questions for the cross town east. There have also been discussions about DRT going to STC.

Srithas responds that there is no funding for this project and that there are still several debates about this project.

Estaris are they planning to keep the ellesmere stop for DRT and now it is at a different location.

Srithas responds that this is not a permanent change
Estaris talks about how long it takes to get to the bus stop to wait for the DRT. There was also interest in getting the DRT passes and another presto loading station.

Konstantopoulos pays money to go to sherboune to get the student ID. Not sure why they don’t come here.

Banvyie talks about how difficult it is to get to Wal-mart. There should be a bus to bring students to these groceries.

Frimpong discusses that there is a bus from residence.

Vigneswaramoorthy also discusses the residence buses. There is a Food Basics and a few other stores. They only travelled on the weekends. It would also not go Wal-Mart.

Abdillahi asks whether this bus is available for all students or just residence students.

Banvyie talks about the food items on campus and how they open too early.

Srithas will be following up with students who would be interested in the Task Force. The townhall will be discussing this issue as well.

6. **Fight the Fees**

Zakir discusses the first meeting that will be happening on Oct 19th and invites everyone to attend. The students should come to the meeting with hope to shape the conversations.

7. **Vigil for Somalia**

Abdillahi discusses a recent attack in Somalia and this has killed hundreds and hurt many others. There are a few other students who would be interested in working on this. The event will be happening in the meeting place. There are also several GoFundMe links going around as well as donation boxes that are going around.

8. **Other Businesses**

**Food Options Open Later**

Abdillahi talks about INS that is a convenience store, the food is expensive and very limited.
Konstantopoulos thinks that there should be a grocery available for students. There is no relevance for an organization like INS. Their lease should not be renewed.

Banvyie notices that the food is very expensive. For a student that is just buying into junk food culture. There are many students that eat instant ramen. They could invest in produce that is easy to be cooked.

Vigneswaramoorthy bought medicine at INS and it was very expensive. There are so many delivery drivers that show up due to the food availability. This is horrible during reading week and exam period.

Sahayian asks what is a dining hall.

Frimpong is to emphasize the issue with the dining hall. At midnight there are places to eat at UTM.

Vigneswaramoorthy talks about the dining halls downtown.

**Proposal for South Asian Heritage Month**

Atwal is a VP of SCPA and has spoken to ISA and would like to do a South Asian Heritage month in May. There are only 1 or 2 events in the year. They were wondering whether they could get some support to work on this.

Zakir talks about the Heritage Month and engaging people. There are not many people on campus at this time.

Atwal was also interested in proposing a campaign with SCPA and would like to have a dialogue in diaspora. They would like to have a series of events called peace builders. They discuss how the community promote human rights. The reconciliation movement would talk about treaties and reconciliation. This is not something that he is very familiar with. Visiting community centres and talk about what is this that makes up the Canadian identity.

Banvyie talks about using these events as fundraisers. There could be opportunities to raise money for different countries.

Srithas brings up February as Black History Month and suggests this dialogue as part of this programming.
Atwal would like some more help in how to get this project going. There were questions about the clubs funding

**Campus Survey on Food**

Konstantopoulos has been working on a survey on food procarity. The food bank will need data from UTSC. This is something she would like to start pulling data together. There is interest in what should be addressed on the survey. Can a survey be launched and can people be in a room to discuss these items. There is a need for students that are interested in working on this issue.

Atwal suggests collaborating with a few other student groups that would also be interested in this initiative.

Konstantopoulos would like to have the survey running by the end of November. There are concerns on having this survey be left behind.

Srithas asks for suggestions on the survey and expressed interest

**Mental Health**

Abdillahi there was the student support group initiative suggestion. Many student groups exist but many are not doing very much

Banvyie talks about the issues with health and wellness counselling. There is interest in having accessibility services provided to the larger population for first years.

Atwal talks about the definition of mental health and how to access resources.

Konstantopoulos talks about how people have cut down services. They would like to streamline the process so that only extreme cases can be seen. Flourish now tracks how many people are accessing these services. The way mental health is seen on campus is problematic. They are trying to get rid of everyone that needs help.

All eligible undergraduate students were asked to present their T-Card however any government issued photo ID was still accepted, as long as the student knew their student number. Polling clerks then inputted the last four out of five digits into a real-time database to determine if the student was eligible to vote. In the event that the student did not appear in the database but still met the above criteria, the poll clerks were then asked to manually input the student’s information into the database and follow the Double Envelope Method to ensure safe and valid voting procedures.

Ballot Box Storage and Security
All empty ballot boxes were stored in the office of the CRO prior to the election days. On the days of the election the CRO and DROs assembled the boxes with seals at each voting station and signed each seal with one (1) poll clerk at each station. Sharply after 6:00pm, the CRO or DRO sealed the ballot box at each location and signed the seal on the box. Systematically, all materials from each voting station were carried from the IC building, then to the Student Centre, and finally to the BV Atrium. After all the ballot boxes were together in the BV Atrium, the CRO, DROs, and late-shift poll clerks made their way to Campus Police and placed the boxes in a sealed room that was then accessed by the CRO at the end of voting on October 19th. Campus Police was notified of the need for storage in advance of voting.

Scrutineers
All candidates were presented the opportunity to submit one scrutineer to observe the polling station procedures as well as the counting process by October 19 by 4pm.

All Candidates Meeting
On October 4th, the All-Candidates meeting was held in Rex’s Lab. The CRO and DRO chaired the meeting, and guided candidates through both the All-Candidates Meeting PowerPoint presentation as well the Elections Procedures Code verbatim, with pauses for clarification and questions when prompted.

There were no demerit points given out.

Ballot Counting

Following the closing of polls on October 19, 2017, the ballots were all transported by the CRO and poll clerks to the ballot counting room, SL283, in the Student Centre. The ballot boxes were opened categorically, starting with all the ballot boxes for Days 1, 2 and 3 from EV, followed by Days 1, 2, and 3 from the Student Centre and finally, Days 1, 2, and 3 from the BV Atrium. Only one ballot box was opened and counted at a time. In this particular order, the CRO read out the ballots while both the DRO’s tallied and filled out the appropriate ballot counting sheets. It was crucial that both DRO’s ballot counting sheets matched up for each day and location. A separate ballot counting sheet was used for each location and day. Afterwards, the tallies from the ballot counting sheet were added to an Excel spreadsheet to sum up the totals, as well as calculate overall voting numbers for the Election.

Recommendations

I recommend that the following individuals be ratified for the 2017 - 2018 First Year Directors of the SCSU Board of Directors:

Hanna Hamzai
Armaan Sahgal

Accessibility

During this election cycle, I ensured that all information presented to candidates were done both in-person and digitally to ensure information accessibility and reduce barriers between the candidates and the elections staff. I believe that this helped lead to a fair and well-conducted election, and believe that this is something that should continue with the new CROs/DROs. Thus, when hiring for these individuals, I recommend that accessibility, openness, flexibility, and willingness to listen should be key character traits necessary for these jobs.

Polling Stations

On the days of voting, we had trouble twice while opening the polling stations. On Day 1 of voting, EV atrium was not open till 11:30 due to there not being tables to set up the polling stations. I would like to recommend that for the future elections, that there should be follow up the day with facilities to ensure they are aware that tables and chairs were required. On Day 3 of voting, polling station in the Student center did not open till 10:30 because of wireless
connection would not connect. I would like to suggest that, set-up begins an hour before to make sure they can be properly opened at 10.

**Conclusion**

I have made recommendations in this report that I believe will enhance the election process in the near future. All recommendations were the results of feedback I heard or challenges I faced during the 2017 SCSU Fall By-Elections. I would like to thank you for the opportunity to participate in these elections as CRO. It has been a great pleasure working with the SCSU this year.

Thank you,
