Gupta asked which account Clubs funding comes from.

Gupta asked for the exact amount of the operating budget for all the events and clubs expenses.

The Executive Director stated that there is a $40,000 operating budget for events and clubs expenses.

Gupta spoke about the Sexual Violence Policy and the Sexual Violence Centre. Gupta made an inquiry regarding how the SCSU could expand the services provided at the Sexual Violence Centre. Gupta stated that there are great services and resources available at the Sexual Violence Centre, the 2 qualified individuals who work there are great but the Centre is only open from 9am-5pm during the week.

Srithas stated that Frimpong and Arayata are working on a report based on consultations they had with Your Campus Your Space and the feedback they received from students. They plan to present this
Gupta reiterated that the staff at Sexual Violence Centre are great, but there are only 2 individuals available to help thousands of students.

Frimpong stated that she brought up this issue to the committee last month. Currently, when you call the Sexual Violence Centre after hours it goes straight to voicemail. Frimpong stated that the voicemail caused confusion because it does not specify which campus you are connected to. Frimpong is pushing for reaching out to other dispatchers in the community and the committee is looking into it. Frimpong also spoke about the possibility of a service learning program in collaboration with the social work program. Currently, there is resistance due to the need for supervision. Frimpong noted that this is happening at other universities so it is a matter of whether the university wants to pay for these services.

Gupta stated acknowledged that sexual violence happens, especially on residence, and suggested to apply more pressure on administration because these services need to be available for students 24/7.

Be it resolved that the Executive Report be accepted as presented.

4. Director Updates

Gupta, Zakir and Gupta had no updates.

Weaver stated that there is a company that is willing to provide a limited amount of resources (tea) for the exam de-stressors and all they ask for in return is a bit of marketing. Weaver is hoping to open talks with them for striking middle ground since the amount of tea they plan to provide is limited.

Weaver stated that people approached him asking what SCSU is doing about the environmental crisis. Weaver asked for more information on who SCSU is partnering with. If there are not many partnerships, Weaver also suggested to apply pressure to administration and find a non-profit or companies SCSU can work with.

Weaver stated that Professor Mandy Meriano wants to hold a D-level course for communicating environmental science. However, the professor who was planning to co-professor with her is not available. Weaver asked if SCSU could offer support for Professor Meriano, possibly thorough sending an email.

Jahangir stated that for the past month she has been working with a variety of people in her department to make the Historical & Cultural Studies department more accessible. The Historical & Cultural Studies is a combination of 6 departments, thus representation is lacking in terms of who the main leaders in the department represent. Jahangir is working with a group of students to overcome this barrier.
Board of Directors Meeting #7 of the Scarborough Campus Students’ Union
Monday November 20th, 2017 | 6:00 PM | SL-232, UTSC Student Centre

Jahangir hopes to overcome this barrier with resources and time so the voices of all students in every department are heard.

Jahangir stated that she has a meeting this Thursday with professors of Women’s Studies to discuss Co-op and Women’s Studies Co-op. Jahangir reminded the Board of the past discussions regarding lack of Co-op opportunities among social science and humanities. Jahangir stated that anyone who is interested and wants to give feedback regarding the lack of Co-op opportunities in those programs can contact her.

Williams had no program specific updates. Williams had a discussion with Srithas regarding campaign points, which are currently a work in progress.

Dang stated that the Political Science Students Association (PSSA) has a grad panel tomorrow at 4 pm, which will bring in people from different institutions to try and attract students to pursue political science related post-graduate degrees.

Dang stated that 5 different social science DSAs, who inhabit one small room, are concerned with the progress of Highland Hall. Dang asked if more information about the progress of Highland Hall could be shared during Board of Director meetings so he can relay this information to the DSAs.

Arayata stated that according to the meetings and spaces she attended, Highland Hall should be done on schedule, i.e. next September.

Morris stated that she met with Srithas regarding the next steps she is taking to accomplish her campaign points.

Sithamparanathan stated that the library is constantly packed, and the people using this space are not usually UTSC students. Sithamparanathan noted that the overcrowding issue is particularly bad this year.

Ali stated that the Association for Philosophy Students (APS) discussed the dates for the annual International Conference; the date is set for March 24, 2018. Ali stated that they are looking for undergraduates from all around the world to hand in their essays so they can find someone who has something worthy to contribute. Ali will talk about the guest speaker at the next meeting.

Vigneswaramoorthy stated that over the summer she contacted every student run UofT publication and made a list of the ones that accept research from UTSC students. Vigneswaramoorthy gave this list to Arayata who will post this information on the SCSU website under Academics. Vigneswaramoorthy encouraged Directors to tell departments about this list because there are a lot of opportunities available.

campaign. There will also be a working group that will work on the elections in conjunction with this campaign.

9. Support for Rohingya - Zartasha Zainab

Zartasha – Interest in raising money for this campaign. Raising awareness for the crisis that is happening. We would like to start petitioning the issues.

Sana – We can also write a letter to the local MP and have them support the campaign and condemn the actions.

Zartasha – We would like to raise awareness, fundraise to deliver aid, the petitioning and writing the letter will be the third part of the campaign.

Sana – The RSC can also play a great role in supporting outreach for the campaign.

Chemi – RSC would definitely like to support for this campaign. RSC will touch base with these student groups.

10. Food Campaign - Katerina Konstantopoulos

Katie – I wanted to start raising awareness on food insecurity. Food precarity and mental health are issues go hand in hand. There are several initiatives that work on food insecurity. There is a composting program. There is an SCSU Food Bank and there are not a lot of options for produce. Community food garden near residence. Co-op kitchen space for students to learn from one another. Students to come together and share food. The green roofs turn into garden and study spaces. There could be a mural project. Food wars would also be of interest.

Curtis – Roof top gardens are run by professors that are running experiments. Sustainability and farmers market always have extra produce. Cooking with Rex where people can come to Rex’s Den to cook. This is very similar to the sustainability food making. Campus mural projects would be really great to work on. The sustainability office would be working on biodegradable containers at the marketplace. The biggest issue would be to get biodegradable containers.

11. Other Businesses

Josh – Improving accessibility on campus. Having each program has someone appointed to make sure that the program is accessible. There are many students that probably drop out due to the accessibility of the programs.

Katie – Perhaps there are potential collaboration.

Sana – The writing on posters being more accessible, such as the contrast and font.
Board of Directors Meeting #7 of the Scarborough Campus Students’ Union  
Monday November 20th, 2017 | 6:00 PM | SL-232, UTSC Student Centre

Josh – Interested in looking at students who have been accepted into PhD and Masters programs that identify as having an accessibility issues.

Raymond – Are we talking about any online accessibility issues?

Josh – There are ways in which the online platforms are already improving.

Katie – Washroom stalls are very small. There are professors saying that I should not be in university because they cannot handle the way in which they teach.

Nana – There are so many issues with getting note takers for classes.

Katie – Maybe it is something more than note taking, maybe one on one peer support would be great.

Alberto – Over the summer I worked with Mood Disorders Society for people with several different abilities. They would like me to be on a youth committee where we can talk about these issues. I am interested in bringing this to campus. I would like to start a student club. I would like to bring this up with Health and Wellness. There was also an issue with student to student support.

Raymond – There was interest in having a club. You can make a constitution with two other people. This would be submitted through ULife.

Diane – Collaborating with a DSA such as PNDA or Health Studies. Health and Wellness does not acknowledge on holistic methods of treatment. Partnering with a professor who would talk about Trauma would also be great.

Alberto – One thing I wanted to focus on was a presentation to discuss how PTSD occurs for many people. I am interested in connecting with other people who would be interested in working on this as well.

Christina – About DSAs, I work with DSAs a lot and every month there is a DSA council and we can bring this up there to connect with more people.

Zartasha - Maybe there needs to be safe spaces and discussion for this.

Sana – Currently, a student brought forward a make it Fair Campaign. There are several items that are under review in the new bill. If there are any students that are interested in being involved in a campaign please let Sana know. Many students who are identifying with a disability are having difficulty and these issues also need to be addressed in these lobby sessions.

Naziha - Talk about Pan Am – TPASC, the women’s space that we get for two hours. The space is not accessible and there is a water fountain that is right there. This is not an
accessible space. Something that I wanted to ask about, on lobbying for increased space or the space upstairs.

Christina – I had a conversation with Laura and this was brought to her and they are currently discussing more hours or expanding the space.

Curtis – This is something that I would like to support and work on. There are potentially spaces that could be repurposed.

Deena – There is a bigger demographic of people who do not feel comfortable with the situation for TPASC.

Alberto – The top floor does not have any access for accessibility. If this could also be an does for people not have to climb stairs to use the cardio.

SCSU FROSH 2017: WE THE EAST Report
By: Michelle Valenzuela and Sarah Mohamed

ORIENTATION PLANNING:

Format
This year’s orientation used a different approach to group students. The original plan was that the VP Campus Life and Orientation Coordinators split the incoming students up into three “houses”. The houses were divided by program (Arts, Science and Management) for the incoming first year study of choice this September. The Arts house consisted of approximately 400 First Years and 35 Group Leaders. The Science house consisted of approximately 350 First Years and 60 Group Leaders. Lastly the Management house consisted of approximately 250 First Years and 40 Group Leaders. Within each house, there were 15 groups each comprised of up to 20-25 First Years and a minimum of 3 Group Leaders per group. There were several notable differences this year in comparison to last year:

1. This year we went with the QR Code method to register students. This method was supposed to help reduce the wait time however similar to last year the wait time was about 3 hours. However, once the leaders responsible for registration got more familiar, the process went by very smoothly.

2. This year the start time for orientation was much later. We started the three days at 1pm instead of 9am because we wanted to condense the programming for less layover time and more time being spent in activity.

3. The next noticeable difference was we initially put the incoming students into groups but later decided to put the first 20 first years in one group and continued with that method until all first years were in a group in their respective houses. Unfortunately, that resulted in not having an attendance of which first years were in which group and it was difficult for the group leaders to keep in contact with their first years.

4. This year in comparison to last year we didn’t provide lunch for the three days and only served dinner. In theory for our budget, this was a smart decision because we were able to use the money for the programming of the three days, but unfortunately, the first years and leaders were not informed to eat breakfast and lunch before arriving which resulted in a lot of very hungry, and tired group of people. Which ultimately led the first years and leaders to leave the programming to go get food because they were hungry.
5. Programming wise we got a tent in the parking lot instead of using Panam because the tent created a more fun and intimate environment where we were in control of light fixture and seating.

6. This year we took out the name tags process during registration and constructed a guidebook which included: food vouchers, a schedule of all three days, a map of the campus, emergency contact, and the list of activities for UTSC LIVE. This would be an excellent way to keep all material in one book then lost in loose papers. In addition, preparations for the guidebook took less time than the time being used to make name tags for all students.

7. Due to popular demand, we brought back Playfair. Playfair is an event which is comprised of a group of icebreakers to get to meet everyone at Frosh. This was a great way for students to open up and be more comfortable in the space. Many students have suggested to continue with this event for the future.

8. This year we provided a new event known as UTSC LIVE, which was our rendition of Nuit Blanche and Friday Night Live at the ROM for our campus tours and 4.0 fair all in one event. We wanted to create a more fun but educational interaction in our school campus but also give the first years the freedom to explore their new home.

9. Lastly, with the decision of making houses divided into program, we created a competition called House Cup. Within each numbered group, first years and group leaders would participate in daily challenges to earn points for their respected house. Each day, they will be given new challenges to complete during specific times in the day. Once a group finished each challenge, an SCSU executive signs off the score sheet. Score of each day are announced by MCs each morning and last-minute points will be earned during closing ceremonies. In result, many students wish to continue House Cup for the future orientations.

**Timeline**

The Senior Orientation Coordinator was hired in the first week of May. The Junior Orientation Coordinator was hired in the first week of June. The hiring of the Masters of Ceremonies and Senior Leaders was completed by the middle of June. We highly suggest hiring the Senior Orientation Coordinator on the first week of May and having the Junior Orientation Coordinator start a week later, with this idea the coordinators can start early with planning and also be more familiarized with how the breakdown of the three months will be. With the orientation team, we suggest hiring them in the month of May just so there is more time for team socials, and more time to thoroughly plan Frosh as a whole.

Group Leader interviews were conducted in mid-July and we sent offers by early August.

Logistics Leader interviews were primarily conducted in the middle of July with a confirmation of leaders by August. Notification of the finalized Leader training dates and Frosh week were
sent out a couple of days with the intention to allow our volunteers to confirm whether they can participate and adjust their schedules accordingly.

The OCs, Orientation Executive Team, and SCSU elected executives conducted Frosh outreach by participating during the Get Started Mix ‘n Mingle event. This occurred from late-June to early-July. We utilized Orientation flyers for giveaways and unfortunately we did not have access to a video for promotion unlike past year. This opportunity at Get Started allowed the team to interact with the incoming first years face to face. Most encounters resulted in a very positive experience. We highly recommend outreaching at this event again.

Similar to 2016, the Orientation Team took part in the Department of Student Life’s Phone Blitzing initiative. We often reached voicemail boxes when calling during the afternoon-evening. Additionally, mailouts outlining the Frosh Week dates and program descriptions were sent out after Get Started for the intention that when we called all the incoming First Year Students, they would have received our mailouts and was eager to learn more about our Frosh week. The addresses were obtained from the Department of Student Life in confidentiality.

This year, Group Leader and Logistics Leader training took place on August 12th and 19th. On August 12th, UTM invited us for an end-of-day social. We also scheduled a make-up training session for the Group Leaders and Logistics Leaders on August 26th that briefly went over the topics covered during the full training dates.

This year’s Frosh took place from August 29th to 31st. In comparison to the previous year, we were able to attract more First Year Residence students, as Frosh was scheduled to occur after Residence Move-In Day. However our events did have some clashes with the Resident Orientation because we had first year students who wanted to leave our programming to go attend an event happening at the resident centre. To overcome this for next year, be in communication with the Resident Council about having their orientation start on/after the 31st for no programming to be overlapping within each other and, allow residence students who want to attend both and very much do so without having to miss either of our events.

**Ticket Sales**

This year we utilized Eventbrite and aimed to sell 1,000 tickets (200 Early Bird at $75+tax, 800 Regular at $85+tax). This year our ticket sales throughout summer were significantly better in comparison to last year. The morning of Frosh we were able to achieve a total of 980 online tickets sold. At the beginning of the Frosh planning process, we initially planned and budgeted for 1,000.

**Meetings**
The Orientation Executive team meetings were held every 2 weeks on Tuesday from 6:00PM - 8:00PM. Starting the 3rd week of July, Orientation Executive team meetings were held every week on Tuesdays from 6:00PM - 8:00PM. The SCSU elected executives attended majority of the meetings, which resulting in a better relationship with the Orientation Executives and the SCSU Executives. We highly suggest that the SCSU executives continue to actively taking part in the orientation team meetings to help build a relationship with the orientation team.

During meetings, the OCs and VP Campus Life would receive updates from each general group (MCs, GL Supervisors, LL Supervisors, Sponsorship, DSAs, UTSC LIVE, Talent Show, and Quiet Space) and answer any remaining queries from the team. Due to the late hiring for Senior Leaders, the OCs also held weekly meetings with each of the Senior leaders to help with any logistics for their events and have them completed by the end of weekly meetings for more productivity.

**Graphics and Designs**
The SCSU Senior Graphic Designer was responsible for the Frosh promotional graphics and Frosh t-shirt designs. Graphics we prepared for the following: general logo, banners, Get Started Flyers, website GIFs, lawn signs, t-shirts, a guidebook, and so much more.

Excluding t-shirts, all other printing was completed through UTSC’s Academic Printing & Custom Publishing Services. We will recommend them for future as well due to ease of communication and good turnaround time.

This year we utilized the t-shirt printing services of the Canadian Federation of Students. By switching service providers, we managed to save approximately $3 per t-shirt. Unfortunately, our order was received very late with the exception of one missing box of group leader t-shirts that we got the following day. We do not recommend utilizing them in the future because of their lack of organization and suggest finding another location that provides ethically made clothing in bulk.

**Sponsors**
The OCs, Clubs and Events Coordinator, and Sponsorship Senior Leader were specifically responsible for sponsorship. A master list from last year was utilized in contacting all potential sponsors. The work was divided according to the following, the Clubs and Events coordinator contacted all the previous sponsors and unfortunately Gain and Gillette decided to pull out from sponsoring us this year which is unfortunate since they were our biggest sponsors from previous years. The master list that was given to our sponsorship senior leader had an overwhelming amount of big companies that needed more information than what we were given such as SCSU’s organization registration number, etc. Unfortunately, we were unable to get a confirmation from any sponsors except those from Hart Entertainment.

By end of June our Senior Graphic Designer created a Frosh Sponsorship Package that outlined the possible sponsorship opportunities and corresponding prices. Once a package was chosen, contracts were drafted. Contracts included thorough details on pricing, deadlines, time, date and location of all the events. Some of the sponsorship opportunities included: tabling during events, promotional materials in the orientation kits and shout outs. Contracts were unfortunately not made this year, not including the contract that was sent out to Hart Entertainment for their services. For the future, we highly suggest contacting sponsors as early as possible. We were unable to get free items to put in the swag bags like in previous years. Also be sure to count the items you do receive for the laundry swag bags ahead of time so you know if you have enough to give away.

**Videography**

Our VP Campus Life contacted Jonah Zapparoli as the Frosh Videographer. He was paid $1,500 as honorarium. The contract stated that he would be responsible for creating 2 videos:

1. Introduction to the Orientation Team in a storytelling music video that was divided into two parts - to be shown on the first and last day of Frosh
2. All three days footage recap

We highly suggest releasing the recap video as promotion for next year.

**Recruitment**

Hiring for the orientation team took place for the following positions: Masters of Ceremonies, Seniors Leaders, Group Leaders, and Logistics Leaders.

**Masters of Ceremonies (MC):**

- The postings went up in early-May and interviews took place in late-May. Offers were sent by the mid-June. There were 6 MCs hired (2 for each house). The MCs created the

ideas for promotional materials and cheers, and planned the Closing Ceremonies along with the Ultimate House Competition (UHC).

Senior Leaders:
- Job postings went up in late-May and interviews took place in early-June. Offers were sent by mid-June. The Senior Leaders were broken down into Events (7), Sponsorship (1), Logistics Supervisors (3), Group Leader Supervisors (3). The interviews were conducted by VP campus life and Orientation Coordinators.

Group Leaders (GL):
- Job postings for Group Leaders went up in early-July. Interviews took place in late-July and consisted of 3 parts: traditional questions and answers, scenarios/situations and improvisation/cheers. We hired a total of 150 group leaders. The Orientation Coordinators, SCSU Executives, Orientation Senior Leaders and the MCs all took part in the hiring process. We suggest updating the questions being asked to group leaders, because those who participated in past years thought it to be repetitive which caused our interviews to be taken loosely.

Logistics Leaders (LL)
- The job postings for Logistics Leaders went up in early-July. The interviews took place in late-July and were conducted by the OCs and Logistics Leader Supervisors. It consisted of formal questions and answers, scenarios/situations and problem-solving exercises

Team Bonding
A number of informal team dinners occurred during the last few weeks leading up to Frosh. This was quite unfortunate due to the fact that Frosh was just around the corner but the socials were very much needed to help the orientation team bond with one another. The first informal dinner was during kit-stuffing that took place at Rex’s Den. We ordered food from Hakka Legend and enjoyed some quality time with one another. We also had the chance to meet at The CNE with some of the team which ultimately was a great time. A more formal dinner took place at Lone Star the night before Frosh. Majority of the team made it to the dinner before Frosh which helped get everyone more excited for the first day. Lastly, we took the team to the W Burger Bar on the day of the parade for our last dinner and time spent together.

Ultimately, an event we did plan, was our Senior Leader Retreat on June 14th for team building, food and for everyone to bond was taken place at the boardroom in the student centre. We also went through new changes for Frosh and listened to everyone’s ideas for how they want this year
to be planned. In the future, we suggest holding off-campus team building activities such as escape room, go-karting, wonderland, or even a weekend retreat to allow for relationship building within the team as early as possible.

Involvement of SCSU Executives
This year, the SCSU elected executives were more involved than in previous years. Although they specifically didn’t have a position on the orientation team they were placed into houses and attended majority of the meetings. The orientation team this year felt significantly closer to the elected SCSU executives because unlike previous years they actively took part in the planning and preparations of Frosh this year. We highly suggest that the new elected SCSU executives of next year also try to get more involved with the orientation team whether it comes to attending meetings, doing outreach, hiring volunteers, or even attending team socials because this creates a sense of trust and friendship amongst the executive team and the orientation team.

UTM Event Collaborations
On August 12th, UTMSU’s OCs invited the SCSU Frosh team and our Leaders to the UTM campus for an end-of-the-day social. We had a friendly water fight along with a cheer off and we participated at the dry dance party in UTM’s Student Centre. We departed from the UTM campus at 7:00PM after dinner and at around 10:00PM after the dry dance party. We received positive responses about this collaboration and day and highly encourage event collaborations with UTM in the future.

Leaders’ (Senior, Group and Logistics) feedback
This year, the OCs created a feedback page for all group leaders and logistic leaders to state their opinions. In addition, we held a debrief/feedback meeting on September 18th to ask the Orientation Team and SCSU executives’ opinion on how the three days of Frosh and parade was to them:

- Start the day earlier and feed everyone lunch or snacks.
- There wasn’t enough time allotted towards bonding time between group leaders and their first years throughout the three days
- A larger tent because it felt crowded and hot.
- Logistic leaders didn’t feel like they had that much to do so a suggestion was either hire less logistic leaders or have allotted tasks for them made beforehand
- Having pizza for dinner would be better if it was warm, and if we gave something with the pizza like a bag of chips or a cookie. If there is food left over we should advertise that getting seconds is permissible instead of having to throw out the rest of the food.
- Include clubs and their activities onto the guidebook (if we continue with the guidebook and UTSC LIVE in the following years)
Board of Directors Meeting #7 of the Scarborough Campus Students’ Union  
Monday November 20th, 2017 | 6:00 PM | SL-232, UTSC Student Centre

- A senior leader suggested that on the wristbands have a spot for their food vouchers, which in theory is an amazing idea since the first years aren’t allowed to remove their wristbands.
- More signage for events
- Having a choreographed cheer-off is more efficient and highly suggested by future MCs to use this method
- House cup is better than Ultimate First year Challenge because it’s more inclusive and celebrates the entire house rather than an individual in one house.
- During exam season training for leaders’ should not take place if we want majority of the hired leaders’ to participate in Orientation
- Majority of the leaders didn’t attend the parade so a suggestion for next year is that in their contracts have it stated that just like the three days of Orientation they are expected to attend the parade.

**ORIENTATION WEEK:**  
**Day One**

**Registration**

| Context | • Register the incoming First Year Students and provide them with their designated t-shirt, Orientation kit, guidebook and wristband. A water station and situations area was prepared along the far end of the Outer Lot |
| Comments | • Registration to start earlier than 1pm, for program to start at 1pm. |
| Issues | • The students were out in the sweltering heat for close to 3 hours.  
• All the logistic leaders, thought they weren’t given enough work during registration  
• The water station jugs were not filled up at a fast enough rate.  
• The eventbrite site was set for the event to start at 12PM when an email was sent out to all participants that we start registration at 1PM |
| Recommendations | • Wristbands should be entrusted with the Orientation Team  
• We highly recommend booking the IC and EV Atrium and setting up the space for a T-Shirt Decorating Event, thus providing students with the option of staying indoors during the Registration period.  
• If lunch is not being provided, have a snack or light lunch being given to first years  
• Find a more sustainable way for the water station  
• Go back to the lanyards and name tags. With this, their names will be on their name tag and shirt for security purposes  
• Have more than two individuals handle the situations table |

**Official Welcome/Opening Ceremonies**
### Issues

**LIVE**

**Context**
- During the Official Welcome the OCs formally welcome the incoming First Year students to UTSC and introduce the Orientation Team. We welcomed Principal Bruce Kidd, Desmond Pouyat, and Elder Wendy as well as indigenous drummers.

**Comments**
- Extra time wasn’t being looked upon, which resulted to us rushing a lot of the presentation
- Many screens were being used for this event, for promotional use

**Issues**
- We wish the tent was much bigger for students to move and to meet fire code

**Recommendations**
- Follow up on all speakers and performers a week before the event
- Make sure all leaders on the team have been communication with the minute to minute of event
- For accessible use, find a company for a live camera projector during this event.

### Playfair

**Context**
- Dianna David hosted Playfair outside of the tent in the Outer Lot

**Comments**
- Make sure to read the contract strictly and list out all preferences and accommodations to be asked for Playfair
- Follow up on who the speaker is for the event two weeks before
- Double check on all A/V a week before event

**Issues**
- Speakers were stayed inside tent which resulted no one to hear the Dianna clearly
- A stage was not provided, so we had to makeshift a stage using four tables

**Recommendations**
- A week before event, go to location and look at space for a rough run through of event
- With a bigger tent, event can be inside tent for a more fun and intimate environment
- If continued outdoors, have more leaders on site to be parameter for no wondering first years

### Dinner

**Context**
- Dinner was provided by Pizza Pizza and served in three different locations depending on which house you are in: EV Atrium, the ARC, and the Student Centre
- For this meal, students had the opportunity to explore the campus leading up to UTSC LIVE

**Comments**
- Students were encouraged to join UTSC LIVE events

**Issues**
- Timing for food should be thought upon, food was served cold
- Communication with taking seconds for food was not told, in result a lot of pizza was left behind and thrown out
- Communication with food options was not communicated
**Board of Directors Meeting #7 of the Scarborough Campus Students’ Union**  
**Monday November 20th, 2017 | 6:00 PM | SL-232, UTSC Student Centre**

| Recommendations | With leftover pizza, find a solution to donate it to a shelter  
|                 | Ensure that all logistic leaders know options being provided to first years |

**UTSC LIVE**

| Context | UTSC LIVE was prepared by senior leaders in the orientation team.  
|         | All first years were provided with a list of activities and a map of the school campus with a route to follow in their guidebooks |
| Comments | The event was highly successful and many students enjoyed the events present and the freedom to walk around campus on their own |
| Issues | Placements for clubs and services to be visually shown and not just on the guidebooks  
|         | To provide more light fixtures for darker areas of the campus  
|         | Two individuals on the team are not enough for a big event like this  
|         | Audio equipment, stage and mics was not communicated |
| Recommendations | Make more signage for participants to know which clubs and services are present at each building. For a creative idea, print a directory and place on UTSC map  
|                 | Two weeks before event, do a run through during hours of event to find dark areas of campus and light fixture solutions.  
|                 | Have the orientation team to all help out and be on the same page of logistics for event. Separate event into three individuals: clubs, logistics, and guest speakers  
|                 | Set-up time for all performers was 30 minutes before performance |

**Day Two**

**Consent Programming (Real Talks)**

| Context | Prior to the start of this event, OCs notified the crowd that the topic to be covered was triggering and sensitive and could make individuals uncomfortable. Two counsellors from UTSC Health and Wellness Centre we on site to provide assistance. A quiet space was set up behind the lecture hall to allow students to decompress. A ‘thumbs-up’ policy was set in place to ensure the safety of all students. UTSC Alumnus, Karen B.K. Chen hosted our consent programming, “Real Talks,” in the form of an informative conversation-like presentation |
| Comments | Students thoroughly enjoyed Karen’s sense of humour |
| Issues | Many management students did not participate/ left early during this event which was disrespectful to Karen and used the quiet space to talk with others |
| Recommendations | Utilize Karen’s expertise again next year for consent programming  
|                 | Encourage students to participate in all activities during Frosh |

**Athletics Challenge**
| Context | The Athletics Challenge was prepared in collaboration with TPASC, Athletics and Recreation, and SCAA.  
| | Each house divided their group into 5 groups of 3 groups. There were 5 stations comprised of: warm-up, zumba, drop-in/booths, TPASC tours, and SCAA Challenge |

| Comments | The event was highly successful and many students enjoyed the zumba and SCAA Challenge |

| Issues | Water was far from event which caused students to walk away from event because of dehydration |

| Recommendations | Find sustainable ways for water transportation  
| | Follow up a week before event for any table and layout of event |

**Departmental Student Association (DSA) Presentations**

| Context | Each DSA had approximately 90 minutes and their own space to conduct a presentation to their respective department. The Social Science and Humanities DSAs (11 in total) were split into four separate rooms in the MW Building and collaborate amongst themselves to present, the Science DSAs presented in AC223 and the Management DSAs presented in IC130 and SY110. |

| Comments | Compared to previous years, the DSA presentations were more interesting and interactive this year |

| Issues | Art DSAs needed a more structured rotation  
| | All leaders and first years needed to be in better communication with respected program in which room |

| Recommendations | A week before event, plan a rough run through of rotation for Arts DSAs  
| | Make a visual/signage for all room locations with a list of all program of study interested. |

**Dinner**

| Context | Dinner was provided by Rex’s Den. The options were a fried chicken with coleslaw and rice, for vegetarian/vegan options we provided curry with rice. All meals were halal. |

| Comments | Many students were hungry which resulted to students taking more than one meal |

| Issues | Communication with food options was not made and many questions for food options were repeated  
| | Guidebooks were lost by this day which resulted to lack of control on who received |

### Talent Show (Mini Mosaic)

| Context | • This year our choice of name for the talent show was for promotion of Mosaic that takes place during the school year  
• Mini mosaic was held in the tent and consisted of a variety of performance acts of UTSC students and alumni. |
| Comments | • The performers had a sufficient amount of time to rehearse prior to the performance timeslot. |
| Issues | • Communication with talent was hard to reach and in result some arrived late to rehearsal |
| Recommendations | • To have a follow up email a week before event for point of contact and a list of all performers |

| Comments | ● Students thoroughly enjoyed the photobooth services provided by Milestone Photobooth  
● Poor communication with food trucks being present resulted students to withdraw money when no food trucks present |
| Issues | ● Double check booking for all inflatables, sponsors, and activities  
● Poor communication on all vendors, information for performer, and time for event |
| Recommendations | ● Recommend working with Milestone Photobooth for next year’s Orientation  
● Students were confused on how long to stay and where to get picked up from parents |

### Day Four

#### Bus Loading

| Context | ● Buses were to be loading in the Gravel Lot to bring students down to Varsity Stadium. |
| Comments | ● Wristbands were needed to board the buses and some students that did not sign up prior to the day received a wristband

CONCLUDING REMARKS

In conclusion, under the diligent supervision of Michelle Valenzuela and Sarah Mohamed, the SCSU Orientation continued to be one of the highlights of the academic year at UTSC. We hope that through this report, future Orientations continue to grow, improve, and prosper for the betterment of the UTSC student body.
